Saturday, 5<sup>th</sup> April 2025 (9 a.m. to 5 p.m. via Zoom)

## **Grammar in English lessons – the what and how!** **An online workshop in English for teachers of ESL and EFL at secondary level – in English**

We need alternatives to the conventional, rule-based approach to English language teaching that is often used in higher grades.

By applying the Montessori principles to language learning, we can facilitate joyful and sustainable language acquisition and learning. The principles of cosmic education inspire a holistic approach to language teaching, while the Montessori grammar symbols make the structure and regularities of language visible.

Birgitta Berger has developed a model to illustrate and explain the English tenses that can be used in any type of school from Grade 7 upwards. Here is the link to her website where you can find out more about the tenses model: [Living Montessori English | Grafing | English tenses](#)

Based on working with the English tenses, this workshop offers

- a holistic grammar approach for the central area of English verbs.
- descriptive and accessible language knowledge in the form of a narrative, using pictures, stories and real objects to contextualize verb forms.
- applications for secondary levels I and II.
- Both theoretical foundations and hands-on experience.

The workshop price includes the bilingual reference book "**English Tenses**: Zeitenmodell für den Englischunterricht nach Montessori-Prinzipien" and the accompanying materials package. The book costs €30,00 in bookshops and the materials package is worth a further €20 (50 sheets in 350g/m<sup>2</sup> four-colour print). This will supply you with everything you need to "get started" immediately in your own classroom. If you already have the book and/or materials, the price for the workshop can be adjusted accordingly, and the book and materials will not be sent to you.

**Workshop fee:** 180€ (170€ for members of the MLVB) including materials
