MONTESSORI CERTIFICATE LEARNING FOREIGN LANGUAGES

A 14-day hybrid course in English for teachers working with languages at all levels

Course explanation

Teaching second/additional or foreign languages based on Montessori principles and the approach of Autonomous Language Learning – this specialized certificate course offered by the Montessori Bildungsakademie Munich enables you to do just that. The Montessori classroom provides the perfect setting for teaching and learning languages using the latest insights from neuroscience, didactics, and methodology. This approach can be implemented in mixed-age groups and inclusive settings.

In this certificate course, we combine a Montessori-guided attitude with proven practical materials and methods, a prepared environment for language learning, and an approach that closely monitors both the learning process and its outcomes. Through input from the course leaders, hands-on practice, and development, as well as intensive exchange and reflection, you can develop professionally and explore practical implementation strategies for your own institution.

This course supports teaching in all foreign languages, including German as a second language, and across all developmental stages. The course language is English, but all exchanges can also take place in German.

The course is conducted in a hybrid format, allowing you to attend the modules either conveniently online via Zoom or in the inspiring environment of Campus di Monaco - International Montessori School Munich, located at Albert-Schweitzer-Straße 68 in Munich, Germany.
